

GIFTS OF APPRECIATED SECURITIES

You can use stocks, bonds and mutual funds that have appreciated in value to support quality education for U of I students. You may receive a charitable income tax deduction for the full market value of the stock (up to a maximum of 30% of your adjusted gross income with a five-year carryforward) and avoid paying capital gains tax on any increase in the value of the stock.

Example: Stocks that you purchased years ago have appreciated dramatically. You want to further your commitment to education and research excellence. By donating the long-term appreciated stock directly to the University of Idaho, you avoid paying up to 20% capital gains tax and the full amount is gifted to U of I – maximizing your impact.

The table below illustrates a hypothetical situation where stock purchased for \$1,000 is now worth \$10,000. The \$9,000 capital gain taxed at a 20% capital gains rate would result in a \$1,800 tax bill. The amount left is \$8,200 after the sale. By donating the stock directly, the entire \$10,000 will benefit the University of Idaho and avoid a taxable event upon the sale.

You may also save money on sales commissions and fees.

	SELL THE STOCK AND DONATE AFTER-TAX PROCEEDS	DONATE THE STOCK DIRECTLY TO UNIVERSITY OF IDAHO
FAIR MARKET VALUE OF STOCK (\$1,000 BASIS)	\$10,000	\$10,000
LONG-TERM CAPITAL GAINS TAX PAID (20% RATE)	\$1,800	\$0
YOUR CHARITABLE DONATION / TAX DEDUCTION	\$8,200	\$10,000

For Idaho residents, donations to the University of Idaho may also qualify for a 50% tax credit on state income tax returns (up to \$500 single/\$1,000 joint).
